compared with problem-based learning: effects of major curricular shift at two institutions, 74
revised model for case study in preclinical medical education (viewpoint), 479
**Chief medical officers,** roles and responsibilities of, 258
**Chronic care**
academic health center management of chronic diseases through knowledge networks: Project ECHO, 154
impact of implementing a chronic care residency training initiative on asthma outcomes, 161
teaching systems-based practice to primary care physicians to foster routine implementation of evidence-based depression care, 168
who will lead? (editorial), 115
**Clerkships**
Baylor College of Medicine's support of Tulane University School of Medicine following Hurricane Katrina, 733
cultural competence teaching in U.S. pediatric clerkships, 558
Harvard Medical School–Cambridge Integrated Clerkship, 397
immersive patient encounters and achievement on Clinical Performance Examination, October Suppl S97
maintaining educational mission of Louisiana State University School of Medicine after Hurricane Katrina, 745
perceptions and attributions of third-year student struggles in clerkships, 970
third-year students' participation in and perceptions of unprofessional behaviors, October Suppl S35
University of Virginia School of Medicine's clerkship clinical skills workshop program, 690
ward-based program to help medical students acquire end-of-life care experience, 723
Web-based system for students to document their experiences within six core competency domains during all clinical clerkships, 51
**Cleveland Clinic Lerner College of Medicine**
approach to medical education and training of physician investigators, 390
portfolio approach to competency-based assessment, 493
unique, innovative, and clinically oriented approach to anatomy education, 475
**Clinical academies,** school–health services partnerships to deliver clinical education, 435
**Clinical enterprise**
organizational factors associated with high quality and safety performance, 1178
University of Kentucky: UK HealthCare, 1163
University of Pennsylvania: aligning academic and clinical missions, 1172
**Clinical settings.** *See also* Communication skills
clinical academies: school–health services partnerships to deliver clinical education, 435
cross-institutional collaboration for medical training in school-based health centers, 458
satisfaction, motivation, and future of community preceptors, 698
site-visit program for quality improvement and community-

based faculty development, 465
**Clinical skills**
assessing communication and interpersonal skills of international medical graduates, October Suppl S65
cardiac physical examination technique and accurate bedside diagnosis, October Suppl S26
discourse analysis of attending physicians' use of questions to assess trainee competence, October Suppl S12
do baseline data influence standard setting for clinical skills examination?, October Suppl S105
early clinical experiences from students' perspectives, 979
immersive patient encounters and achievement on Clinical Performance Examination, October Suppl S97
promoting and assessing medical student retention of physical examination skills, October Suppl S22
proposal for teaching basic clinical skills for mastery: case against vertical integration (viewpoint), 83
sequence effects in USMLE Step 2 Clinical Skills Exam, October Suppl S101
student performance problems in medical school clinical skills assessments, October Suppl S69
University of Virginia School of Medicine's clerkship clinical skills workshop program, 690
**Clinical trials**
clinical trial billing compliance at academic medical centers, 646
implementing translational research policies in electronic medical records, 661
inventors as investigators: ethics of patents in, 24
**Collaborative Institutional Training Initiative (CITI) program,** online resource for education in human subjects protection and responsible conduct of research, 861
**Columbia University College of Physicians & Surgeons**
advisory dean approach to academic and career advising for medical students, 718
cover note, 1171
**Commentaries**
medical school expansion, 1121
new directions for nurse practitioners and physician assistants in era of physician shortages, 827
training–practice gap, 219
values and ethics: curricular reforms, 321
**Communication skills**
difficult conversations in health care: cultivating relational learning, 905
and interpersonal skills of international medical graduates, October Suppl S65
self-awareness, mindful practice, and relationship-centered care in medical education (viewpoint), 422
**Competency.** *See also* Cultural competency
competency-based postgraduate training (viewpoint), 542
competency in surgical residency training (viewpoint), 569
cultural competence and the African American experience with health care (viewpoint), 176
cultural competence teaching in U.S. pediatric clerkships, 558
discourse analysis of attending physicians' use of questions to assess trainee competence, October Suppl S12
